| Oratene Water Additive | 4 oz bottle | ROWA0400 | 6 67334 50401 9 |

HOW ADVANCED FORMULA ZYMOX® PLUS OTIC WORKS

The Advanced Formula ZYMOX PLUS Otic features the patented LP3 Enzyme System PLUS four additional enzymes. The combination of mutanase, dextranase, cellulase, and beta glucanase work to attack the complex biofilm structure, prevent adhesion and metabolize its components. When combined with the antimicrobial LP3 Enzyme System, the results are antibacterial and antifungal along with effective biofilm removal.

ADVANCED FORMULA ZYMOX PLUS OTIC ENZYMATIC FORMULATION

Ear care for resistant otitis externa. Ideal for cases of repeated infection or the infection that won't resolve.

Engineered to aid in the management of the toughest chronic otitis externa cases due to resistant organisms, such as those that form complex biofilms such as Pseudomonas and Methicillin-resistant Staphylococcus aureus. Features increased potency of the patented LP3 Enzyme System PLUS four additional biofilm-reducing enzymes formulated to destroy the hard-to-penetrate biofilm. When combined the results are antibacterial and antifungal and provide effective biofilm removal.

Available in
1.25 oz.

ADVANCED FORMULA ZYMOX PLUS

- Manage and prevent otitis externa
- Broad spectrum effective against resistant bacteria and fungi, including yeast
- Features the LP3 Enzyme System **plus four additional biofilm-reducing enzymes**
