CAPSULE
FOR CATS AND
DOGS OF ALL SIZES!

Mycequin[®] is a targeted probiotic containing NMXAAD[®], a proprietary blend of *Saccharomyces boulardii*, a type of yeast, and beta-glucan, to support intestinal health.

Pets may experience gastrointestinal issues with antibiotic use, potentially affecting compliance.

Probiotics help restore microbiome balance. Antibiotics may impact bacterial-based probiotics while yeast-based probiotics are not impacted.

Mycequin[®], a yeast-based probiotic, helps support intestinal health in various circumstances and can help promote owner compliance when secondary gastrointestinal issues occur.

mycequin®

TARGETED PROBIOTIC

Mycequin® contains 5 billion CFUs of *Saccharomyces boulardii* and beta-glucan in an easy-to-administer sprinkle capsule. These ingredients are backed by research and help support gastrointestinal balance and immune function.

	Mycequin®
Helps support healthy intestinal balance	✓
