

COBALAMIN SUPPLEMENT

COBALEQUIN[®]

B₁₂

NOW AVAILABLE
COBALEQUIN[®] ADVANCED

Cobalequin[®] is an easy-to-administer form of cobalamin supplementation. Oral cobalamin is bioavailable and has been shown in studies to increase serum cobalamin levels in dogs and cats.

- Supports compliance with ease of delivery
- Reduces and may eliminate the need for injections
- Contains 5-MTHF, the biologically active form of folate
- Features a clinically researched formulation

COBALEQUIN® AND COBALEQUIN® ADVANCED: COBALAMIN SUPPLEMENTS YOU CAN TRUST

Cobalamin supplementation should be considered when serum cobalamin concentration is on the low end of the reference interval.

Cobalequin® has been shown in two published studies to increase serum cobalamin levels and decrease serum methylmalonic acid, an indicator of cellular cobalamin deficiency, in dogs and cats.

Cobalequin® is now available in two variations:

	 Cobalequin®	 Cobalequin® Advanced
Form	Tasty chewable tablets <i>(tablets may be easily crushed)</i>	Easy-to-administer sprinkle capsule <i>(contents may be easily dissolved)</i>
Flavor	Hydrolyzed chicken flavor	No added flavor
