

EPIC® Daily

Helps to Support Immune, Gastrointestinal and Respiratory Systems

EPIC Daily is a whole health supplement that provides targeted **immune, gastrointestinal and respiratory support** using the unique EPIC technology of egg proteins from hens strategically vaccinated with specific antigens. This product will benefit horses facing challenges that often accompany the intense demands of training, competition, or frequent transport.

Benefits

- Supports the immune system with N-Acetylcysteine and Taurine.
- Contains probiotics and omega 3 & 6 fatty acids to help maintain a healthy respiratory and gastrointestinal tract.
- Ideal supplement for horses under the intense or stressful demands of training, performance, transport, or a new environment.

- ▶ **EPIC Daily**
2 kg Bucket #439301
