

The taste cats love.
The relief they need.

SYMPTOMATIC RELIEF FOR UPPER RESPIRATORY CONDITIONS (FHV)

Now available in **PASTE & POWDER** formats!

DIRECTION FOR USE:

Using the provided 0.75 g scoop, add the following quantity of powder to food:

Adult cats: ½ to 1 rounded scoop (250 to 500 mg L-lysine) twice daily
Kittens (under the age of 6 months): ¼ to ½ rounded scoop (125 to 250 mg L-lysine) twice daily

Administer the following quantities orally as treats:

Adult cats: 1 to 2 chew(s) (500 to 1000 mg L-lysine) daily
Kittens (under the age of 6 months): ½ to 1 chew (250 to 500 mg L-lysine) daily

Using a teaspoon (5 mL), administer orally the following quantities:

Adult cats: ½ to 1 teaspoon (500 to 1000 mg L-lysine) daily
Kittens (under the age of 6 months): ¼ to ½ teaspoon (250 to 500 mg L-lysine) daily

Help reduce the severity and frequency of eye conditions associated with Feline Herpes.

With 1000 mg of lysine per 2 scoops of powder, 2 chews or 1 teaspoon of paste, Optixcare® L-Lysine Powder, Chews & Paste are designed to provide cats and kittens with the recommended dose of lysine every day...with minimal effort.

WE BELIEVE IN BRINGING YOU GREAT PRODUCTS AT GREAT SAVINGS.
